

STS-PROLACT PROBIO

Probiotics microbes for poultry

STS-PROLACT PROBIO : Indigenous Intestinal bacteria Inhibit pathogens; Include competition for colonization sites, competition for nutrients in gut and intestine of birds

STS-PROLACT PROBIO prevents production of toxic compounds and stimulation of the immune system

STS-PROLACT PROBIO Improves feed intake and nutrient uptake from the gut by lowering pH of the gut through the production of wider range organic acids

STS-PROLACT PROBIO enhance animal performance, decrease carcass contamination, Prevent pathogen colonization

STS-PROLACT PROBIO decrease ammonia and urea excretion, Increase biomass and stool bulking in birds

STS-PROLACT PROBIO Lower serum cholesterol and lower skatol, indole, phenol, etc., in birds

PRODUCT SPECIFICATION

Temperature	: 20°C - 55°C Storage
Biodegradability	: Best before 12 months
pH optima	: 5 - 7
MRP	: Ask for quote
Total count	: 4-6000 million CFU/g
Dosage	: Broiler/Layer 100g/ton As prescribed by Doctors and nutritionist

PACKING AVAILABILITY
10 KG, 25 KG/BOPP
BAGS

Address : D-46 & 47, Metagalli Industrial Estate,
Metagalli, Mysore, Karnataka- 570016. Ph : 0821-2517766, 9606036450

STS Biotech Pvt.Ltd.,

STS-PROLACT PROBIO

Probiotics microbes for poultry

COMPOSITION

Probiotics in STS-ProLact Probio

Saccharomyces cerevisiae

Saccharomyces boulardii

Bacillus subtilis

Bacillus amyloliquefaciens

Bacillus licheniformis

Lactobacillus acidophilus

Lactobacillus casei

Lactobacillus bulgaricus

Spirulina

Streptococcus lactis

Dosage : Broiler 100g/ton
Total count: 6000 million CFU/g
Layer : 100g/ton
Breeder -150g /ton

BENEFITS

Produces bacteriocin that eliminates pathogenic bacteria

Inhibition of pathogenic organisms

Improves immunity, reduces usage of antibiotics

Helps nutrient uptake from the gut by lowering pH

STS-ProLact Probio is an animal feed supplement, not a medicine and not for human use
