GROWFAST-F

Product Benefits:

Speed up weight gain: Enhances the proportion of weight gain significantly.

Boost immunity: Strengthens immunity against microbial infections.

Minimize Feed Conversion Ratio (FCR): Improves feed efficiency, reducing the amount of feed needed for weight gain.

Reduce Days On Count (DOC): Lowers the number of days required to reach harvest weight.

Cost Effectiveness:

Comprehensive nutrition: Contains all essential ingredients, eliminating the need for additional medicines, growth promoters, sanitizers, and antibiotics from day one to harvest.

Reduced feeding cost: Minimizes the number of days to harvest, thereby reducing overall feeding costs.

Dosage and Packaging:

Dosage: 500 grams to 1 kilogram per ton of feed, depending on stocking density.

Packaging: Available in 1 kg, 10 kg, and 25 kg packs.
